

Geldi Alla - Front End Developer

About me:

Humble, hardworking and **ambitious** individual with a great passion for innovation and **software development**. **Committed** at learning all the basics related to the ideal profile of a **Front-End Developer**, starting with **HTML**, **CSS** followed by **JavaScript**. I have knowledge on **APIs**, **Functions**, **Objects**, **Arrays**, etc. I have also practiced with **frameworks**: **CSS frameworks Bootstrap**, **JavaScript frameworks Angular (functional components)**. I prefer to use a practical approach to **problem-solving** and I'm focused to see things through to **completion**. I want to learn, and continuously improve my **technical knowledge**. I also consider myself as an **articulate**, **confident** and **well-organized person**.
